Skills

Languages:
TypeScript, JavaScript, HTML, CSS, Sass

Frontend:
React, Next.js, Tailwind CSS, MobX, Zustand

Backend:
Node.js, Express, NestJS

Testing:
Cypress, Jest

Data:
MySQL, PostgreSQL, Amazon Aurora, Elasticsearch

DevOps:
Git, Docker, AWS, CI/CD Pipelines, Bamboo, Bitbucket, Github

Tooling:
Claude AI, Vite, ESLint, Prettier, Biome

Collaboration:
Figma, Atlassian Suite, Jira, Confluence

Mobile:
Ionic, Capacitor, Android, iOS

Work Experience

Swarovski

Feb 2020 - Apr 2023
Nov 2023 - Jun 2026

Full-stack Developer

Wattens, Austria

- Implemented TypeScript based React frontends with complex MobX state management and Node.js APIs for various applications including product catalogs, communications tools, and retail omnichannel mobile apps (iOS, PWA, Android).
- Leveraged AWS Lambda, Elasticsearch, DynamoDB etc. within a wide range of applications and microservices as well as employed various DevOps techniques to automate building and deployment routines.
- Maintained and refactored legacy code, reducing technical debt and improving maintainability.
- Translated Figma designs into consistent UI components, ensuring adherence to brand styling.
- Collaborated with QA to test features and resolve bugs.
- Designed and contributed to new microservice architectures, enhancing customer experience and boosting team productivity.

FERCHAU

May 2023 - Oct 2023

Full-stack Developer

Innsbruck, Austria

- Developed and enhanced a NestJS microservice application, while refactoring legacy code to reduce technical debt.
- Leveraged Microsoft Azure DevOps to manage CI/CD pipelines, ensuring fast and reliable deployments.
- Implemented features and bug fixes for Full-stack projects using TypeScript React SPA/PWA and Node.js/Java APIs.

OneMagnify

Oct 2019 - Feb 2020

Frontend Developer

Wilmington, Delaware

- Developed responsive HTML marketing emails with cross-client compatibility (Gmail, Outlook, Apple Mail, etc).
- Translated designer layouts into production-ready email templates while maintaining pixel-accurate styling.
- Built static marketing sites and internal React tools to streamline HTML email generation.

Mike Brucker

Education

New York Code + Design Academy

Jul 2018 - Oct 2018

Philadelphia, Pennsylvania

- Completed 480+ hours of Web Development Intensive Program covering various Full-Stack technologies and various methodologies including OOP, TDD, pair-programming, AGILE, and SCRUM.

Temple University

Sep 2011 - Dec 2015

Philadelphia, Pennsylvania

- Bachelor of Arts - Media Studies and Production.
- Audio track focus, also took related courses in graphics design, web development, audio and video editing.
- Inline Hockey 2013 - 2015.

Other Experience

1&1 Internet

Jan 2016 - Sep 2016

MyWebsite Technical Support

Chesterbrook, Pennsylvania

- Assisted customers on creating/editing websites, e-commerce sites, domains, and e-mail.

United States Air Force

Sep 2007 - Sep 2010

Aircraft Armament Systems Technician

North Las Vegas, Nevada

- Worked in teams of 3 called load crews as a "2-man" responsible for technical preparation and attachment of live and dummy munitions for the advanced airframe F-15E.
- Entrusted with E-4/E-5 level hardware troubleshooting and testing.
- Achieved Journeyman Level early at the rank of E-3.
- BTZ (Below-The-Zone) Nominee for early promotion due to outstanding work.
- Awarded Load Crew of the Year in 2008 on one of the largest Air Force bases with 7 different Aircraft Maintenance Units and 50+ other load crews.
- Distinguished Graduate of Technical School with an overall grade of 99/100.
